

PRESS RELEASE: May 13, 2019

NHA to hire ITS Consultant for Highways and Motorways

Chairman National highway authority (NHA) Mr. Jawwad Rafique Malik has directed to hire a consultant firm for deployment of Intelligent Transportation System (ITS) at all national highways and motorways.

National Highway Authority is deploying state of the art Intelligent Transportation System (ITS) for the first time on national highways and motorways. The Intelligent Transportations System deployment is aimed at ensuring that the country takes a step towards documented economy along with providing further services to the commuters.

The NHA Chairman stressed on accelerating the process of ITS deployment and related activities. In this regard Chairman NHA directed the concerned authorities to hire an ITS consultant firm at NHA head quarters for policy making, to evaluate the existing infrastructure, and propose integrated solutions for highways & Motorways and workout futuristic solutions to attain best results of ITS deployment.

He further directed to finalize the process of hiring ITS consultant firm at the earliest.
